LA Eastside Neighborhood Tour LA Eastside Community Owned and Benefiting Spaces

Tuesday, May 6th, 2025
9:00 am – 12:00 pm

Presented by Inclusive Action for the City

LA's East Side, a collection of neighborhoods east of the Los Angeles River, gave rise to the Chicano Movement—a civil rights movement advocating for Mexican American empowerment, labor rights, education reform, and social justice. Today, these neighborhoods and communities, associated with a strong sense of Mexican and Latino American identity through art, culture, food, are facing severe displacement pressures. The activism and community development tradition are carried on by many residents and community-based organizations. We will explore real estate and development projects ranging across models and sizes on this LA East Side tour. This tour will be presented by Inclusive Action for the City, a Boyle Heights based economic development organization.
